

# Maths Targets Term 2 – Fractions

<p><b>Pascal</b></p> 	<p>Compare and order fractions including fractions that are greater than 1. Begin to add and subtract fractions with different denominators and mixed numbers. (use pictorial clues and real objects to help.</p>
<p><b>Archimedes</b></p> 	<p>Use common factors to simplify fractions; use common multiples to express fractions in the same denomination. Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions i.e <math>11/4 - 1/2</math>.</p>
<p><b>Pythagoras</b></p> 	<p>Use common factors to simplify fractions; use common multiples to express fractions in the same denomination. Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions i.e <math>11/4 - 1/2</math>.</p>
<p><b>Fibonacci</b></p> 	<p>Use common factors to simplify fractions; use common multiples to express fractions in the same denomination. Add and subtract fractions with different denominators and mixed numbers, using the concept of equivalent fractions i.e <math>11/4 - 1/2</math>.</p>
<p><b>Einstein</b></p> 	<p>Use and apply their knowledge of fractions to solve problems and real life experiences that: Use common factors to simplify fractions; use common multiples to express fractions in the same denomination, Add and subtract fractions with different denominators and mixed numbers Use the concept of equivalent fractions i.e <math>11/4 - 1/2</math>.</p>
