

Layered Targets - Year 3 - Term 3

As part of our continued drive to raise standards and help the children make rapid progress, we have placed your child's individual 'targets' in reading, writing and maths on the school website under their classes 'Year Pages'. These targets will be taught regularly in each class, and form an important part of your child's learning journey. We hope you find it useful to be aware of the main 'focus' in English and maths this term, and feel that you are able to support your child's learning at home, particularly in these areas. If you would like any further information, please contact your child's class teacher via the school office. Your child should know the group they are in.

<u>Subject</u>	<u>Group</u>	<u>Target</u>
<u>Reading</u> Inference and deduction -fiction	Red	I can sometimes find words and phrases in a story to explain what I think it is about.
	Blue and Green	I can find words and phrases in a story to explain what I think it is happening.
	Yellow and Purple	I can think of other words and phrases that the author could have used and say why.
<u>Writing</u> Grammar	Red and Blue	With support, read through their own and others' writing looking for punctuation errors and correct accordingly.
	Green and Yellow	When writing, proof-read for spelling and punctuation errors in both their own and others' writing.
	Purple	When writing, proof-read for spelling, grammar and punctuation errors in both their own and others' writing, give feedback in a positive way.
<u>Maths</u> Fractions.	Red and Blue	Add and subtract fractions with the same denominator within one whole [for example, $5/7 + 1/7 = 6/7$] Compare and order unit fractions, and fractions with the same denominators.
	Green	Recognise and show, using diagrams, equivalent fractions with small denominators. Recognise, find and write fractions of a discrete set of objects: unit fractions i.e $1/4$ $1/3$ $1/5$ and non-unit fractions with small denominators i.e $2/4$, $3/5$. Begin to add and subtract numbers with the same denominator i.e $4/5 - 1/5 =$
	Yellow and Purple	Use and apply their knowledge of fractions to solve a range of fraction problems including finding equivalent fractions, ordering fractions and adding and subtracting fractions with the same denominator.
